1. INTRODUCTION

Globally, corporate governance, risk management and compliance (GRC) has emerged as a discipline that needs to be thoroughly understood and effectively implemented by an organisation in order to optimally enable the achievement of its strategic direction and to guide operational conduct. There is a need to develop and apply sound GRC principles and institute high ethical values for the benefit of investors, our stakeholders and the communities in which we operate.

The Compliance management Policy sets out the approach of how Msukaligwa Local Municipality (MLM) manages compliance obligations and mitigating compliance related risk, in order to achieve our compliance objectives.

The King III Code on Corporate Governance recommends that the Council of MLM take overall accountability for compliance within MLM, to delegate to management the implementation of an effective compliance process and to ensure that an approved compliance policy and framework has been implemented by management.

The King IV Code on corporate Governance state that “council should govern compliance with applicable laws and adopted,non-binding rules,codes and standards in a way that supports the municipality being ethical and good cooperate citizen’. King IV Code also recommends the following practises:

- (a) Assume responsibility for the governance of compliance with applicable laws and adopted, codes and standards by setting the direction for how compliance should be approached and addressed in the organisation.
- (b) Approve policy that articulates and gives effect to its direction on compliance, and that identifies which codes and standards the organisation has adopted.
